

"I love the way the house *flows from one room* to another in the same beautiful palette"

FORMAL LIVING ROOM (top) Cool blues paired with a lime-washed rattan chest as a coffee table (try French Dressing) and sea matting used as a rug (available at Floorspace) link the interior to its seaside location. The French armchair was upholstered in a blue and white stripe. For a similar armoire, visit antique markets or Parterre. **ENTRANCE (bottom left)** A set of vintage German etchings of church facades, purchased on Ebay, together with an antique chest of drawers and lamp base, give the modern home a strong sense of history.
